

CO-OP INFO SESSION

MONDAY, FEB. 7

@STEW 310 - 7:30PM - 8:20PM EST

FREE PIZZA

We will be going over a brief overview of Amcor, followed by two job profiles in R&D and process engineering. The content of the job profiles include an overview, day to day responsibilities, and a representative project summary. We'll also touch on our co-op program at the end.

We are seeking ME undergraduate (Sophomore – Senior) candidates to complete a semester long R&D Co-Op starting January 2023 and ending in August. We are also seeking candidates for full time positions to start in June 2022 or January 2023. Candidates will be placed in Neenah, Wisconsin at the Amcor Innovation center for R&D, or one of our 45 manufacturing facilities for process engineering.

Virtual Meeting Info: <https://bit.ly/amcor-virtual-info>

Please follow the link below for more information, and to apply for the Co-Op position. In addition, please send resumes to Joe.Magnabosco@Amcor.com with a brief introduction.
