

I got the chance to assimilate trends in software development while interacting with customers

and consulting with internal teams. There are no limits to learning and showcasing your talent at Altair.

#ONLYFORWARD

ALTAIR INTERNSHIP PROGRAM

At our core we are explorers; adventurers; pioneers. We are the brains behind some of the world's most revolutionary innovations, the original trailblazers that make the impossible possible, discovering new solutions to our customers' toughest challenges. Because of this, Altair offers a cutting-edge internship program that fosters innovation, leadership, and a passion for making a difference. As one of the best and brightest, you will play a critical role in helping us turn today's problems into tomorrow's opportunities.

Freedom to explore technical trends and breakthrough technologies through **meaningful projects**, while making an impact in the world. Test your limits and take on challenges.

Collaborate and partner with our **top global innovators & engineers** on up-and-coming tech trends, and the newest and the most advance technologies available.

Grow and learn in our **development program** designed to enhance leadership, communication, and professional skillsets.

Team up with other interns and Altair's best and brightest to **build your professional network** all while having fun.

Altair provides inclusive **rewards package** offering competitive wages, corporate discounts, remote or relocation options, and the opportunities to advance your career.

Altair believes that empowering each individual authentic voice encourages an entrepreneurial mindset. We've created a culture where **diversity** is essential to our success.
