

UNLEASH YOUR TALENTS

Discover your Passion for Industrial 3D Printing

Title: Business Development and Instructional Design Intern

Responsible Manager: Fabian Alefeld

Location: Pflugerville, TX

We, EOS - world market leader for industrial 3D printing, are looking for you to support our **Additive Minds Academy and Business Development Team** in the development of industry-leading education services and market analysis. Results of your work will accelerate the adoption of Additive Manufacturing (AM) as a viable manufacturing technology. In fact, the goal of the internship together with subject matter experts (SMEs) will be to develop a digital training course for a massive open online course (MOOC) platform.

Your Mission

- Work with the Business Development team in market analysis activities to explore the potential of additive manufacturing in new applications across a variety of industries.
- Analyze the workflows of the Business Development and Additive Minds Academy teams and seek opportunities for process optimization using AI and Microsoft tools.
- Work together with SMEs to translate an online training product within the internship term and present the results to a team of AM engineers and managers.
- Create quizzes and skill assessments to measure learning outcomes for existing online courses.
- Support the AM Academy team in other activities, such as the revision of existing products, the creation of product descriptions, etc.

Your Talents

- Student pursuing a Bachelor's or Master's degree in Business, Engineering, or other relevant discipline.
- Interest in learning more about additive manufacturing and how this disruptive technology will create positive change for the manufacturing industry.
- Experience in MS Office and Generative AI tools (ChatGPT, MS Copilot, etc.).
- Experience in creating and editing video-based content, presentations, handouts and/or e-learning for education purposes
- Experience with Descript, Adobe Creative Suite, or other content creation software is a plus.
- Excellent visual layout and design skills.
- Excellent command of English, orally and in writing.
- Great communication skills and optimistic attitude!

Our Vision

Over 1000 sharp minds, about 60 nationalities, one goal: accelerating the world's transition to Responsible Manufacturing.

Our proven technology, industrial 3D printing, has been extending the boundaries of manufacturing for over 30 years. We work globally networked and prefer to think outside the box and we're looking for people who want to shape the future with us.

EOS welcomes individuals from all backgrounds, ensuring equal opportunities without regard to race, color, religion, national origin, gender identity, expression, sexual orientation, age, or disability. At EOS, equity and inclusion are fundamental principles, and we believe in creating a work environment that is built on empathy, respect, and fairness.
