

UNLEASH YOUR TALENTS

Discover your Passion for Industrial 3D Printing

Title: Business Operations Intern

Responsible Manager: Business Analytics Manager

Location: Pflugerville, Texas

We, EOS - world market leader for industrial 3D printing, are looking for a Business Operations Intern to join our team this summer! The candidate will be a part of the Business Process and Analytics Team and will be participating in analyzing business processes, generating reports, and contributing to strategic decision-making initiatives. During the tenure at EOS, the candidate will have a chance to learn about supply chain, business operations, service processes using ERP systems that support the Additive Manufacturing industry.

Your Mission

- Aid in root-cause analysis and creation of process charts and standard operating procedures (SOPs) for Operations teams
- Assist the business analytics team with process improvement initiatives
- Gain an understanding of cross-department tasks and help develop automated processes to reduce repetitive procedures.
- Interact with business stakeholders to translate complex analytics into simple, actionable business insights and recommendations to implement continuous process improvement
- Work with technical stakeholders to support the implementation/deployment of systemic solutions or changes to existing solutions
- Collaborate with colleagues from various departments to gather input, share insights, and implement process improvements
- Support ad hoc projects and tasks assigned by supervisors to contribute to the overall success of the organization

Your Talents

- Must be currently seeking a Bachelor's/Master's degree in the field of industrial engineering, supply chain management or similar
- Experience in process designing tools like Microsoft Visio, BPMN and/or Signavio
- Experience or strong understanding of ERP systems like SAP or similar
- Knowledge of Microsoft Office applications (Excel and Word) at an intermediate level
- Self-starter with ability to work on complex or undefined problems and quickly identify and address critical issues
- Must be able to work effectively in a multidisciplinary, collaborative team environment focused on streamlining processes
- Must demonstrate excellent verbal and written communication skills

Our Vision

Over 1000 sharp minds, about 60 nationalities, one goal: accelerating the world's transition to Responsible Manufacturing.

Our proven technology, industrial 3D printing, has been extending the boundaries of manufacturing for over 30 years. We work globally networked and prefer to think outside the box and we're looking for people who want to shape the future with us.

EOS welcomes individuals from all backgrounds, ensuring equal opportunities without regard to race, color, religion, national origin, gender identity, expression, sexual orientation, age, or disability. At EOS, equity and inclusion are fundamental principles, and we believe in creating a work environment that is built on empathy, respect, and fairness.
